

5meoDMT secret key

This report is for experienced psychonauts, I do not take any responsibility for what you can do with those information.

DMT is the Spirit-molecule, it allows you to “see” the matrix.

5meoDMT is the God-molecule, it allows you to go above the matrix in the realm of God.

The secret is: this spice opens the doors of mediumness.

If you want to ~~get cursed by jokers~~ ghosts become a witch or a wizard, just follow this tutorial:

1. First step: Make sure you are living in a simulation.

Melt 1g DMT freebase in 1ml VG/PG 50/50, keep it warm to prevent re-crystallization. Smoke with a double/triple coil temperature-control at 194°C. See the matrix.

This quite a brutal experience and you won't remember most of your visions. You need to smooth the travel by ingesting 200mg harmine or harmaline in pill 30min/1h before. You can also smoke 50mg harmaline in a light join of weed right before the DMT.

See the spirits, the aliens, etc... and remember your visions. This is called Vaporhuasca and is identical to ayahuasca without the sick and the dizziness.

This is totally safe and you'll have very little side effects. Once you're comfortable with DMT you can go on next step.

2. Second step: Make sure you are ready to deal with spirits.

5meoDMT is smoother than DMT, although it can provide a rather traumatic experience. Why? Because it's a test for your aptitude to cope with intense stress. I advise you to be vegan-peace and love before you try 5meo.

The 5meo could melt in VGPG but you don't want to waste such a rare and expensive spice, 15mg in firefly 2 at 220/230°C is a good tool despite its slow melting makes it difficult to smoke before your brain locks the receptors. Best way is conduction vaporization provided you don't burn the spice. Don't exploit Bufo toads if you're not from traditional tribes, prefer synthetic 5meo which is much more potent for what we are trying to do here.

If you go to hell: stop eating meat and dairy products, try to be a better person, etc... wait at least one week between your travels. Try again. Do not go further until you get an ecstatic nirvana experience meaning you are welcome to go on next step.

3. Third step: open the doors of perception.

Do not continue if you didn't pass the previous test, simply because the doors can only open more. There is no way back if you do this: replace DMT with 5meo in the Vaporhuasca. I read many reports saying mixing inhibitors with 5meo was dangerous to death, this is false, it's absolutely safe for body health, however it is quite tough on mental health. Indeed, you'll get to "hear" ghosts. Like a witch. This is normal.

Follow this:

- Smoke 50mg harmaline with a light sativa weed right before 15mg of 5meo.
- Go to heaven (through hell).
- Meet God. Get your mission.
- Come back to earth (through hell).

That's it, now ~~your life will become a nightmare~~ you're a Jedi and you can talk with ghosts. Repeat the process until you are crazy enough to ingest the harmaline by pill before the 5meo. You'll get to learn your own powers with the spirits guidance,

this is a very punitive and demanding school. You've been warned. You can smoke the harmaline with Strong indica strain if you are at ease with spending time in hell and want to push the learning hard.

You can then increase your powers at any time by smoking a simple join.

Common powers:

- 6th sense ability.
- Card reading.
- Ouija doesn't work with a glass or whatsoever similar (it would cost far too much energy to move) but with a pendulum. Pendulum provides 1/0 insight which is enough to split a Ouija towards a letter.
- Get visions and creative thoughts.
- Learn the [language of the Birds](#), the ghosts use all the code around you to inform you: texts, tv, web, people speaking, etc... you will "flash" on few words or sentences.

Disclaimers:

- Beware the more you eat meat, the more you attract nasty spirits.
- Is it mandatory to go through hell to reach heaven? I don't know... maybe if you have always been vegan you will be spared. Not even sure.
- Spirits are dead humans, not necessarily angels, they will lie 50% of times and play with you until you understand you are the one who decide to follow or not all the stupid things they ask you to do. Practice magic with one or more other witches if you don't want to play like Polyphemus. The more you are, the more precise is the radar.
- You might have observed we are living in a very violent reality and many humans died of terrible injustice. They might ask you to help for a revenge. The worst is to get tormented and controlled by dead kids, they are especially merciless because of a lack of education (even more if they had no school to go before dying at war or because of old diseases yet we know how to heal in modern countries), that's the reason why I give all my incomes to the Mobutu foundation since I've smoked too much 5meo. If you have 5000\$ wandering on your account, you know what you have to do: Kerberos market, vendor: morgan77 (ghost writer)
